

# Force XXI Battle Command Brigade And Below (FBCB2)

23-25 January 2001

COL Brett Weaver  
TSM Force XXI (FBCB2)

Provides the Power of the Network to Share Situational Awareness (SA) and Command and Control (C2) Information Toward the Efficient Use of Resources within the Enemy's Decision Cycle

# Agenda

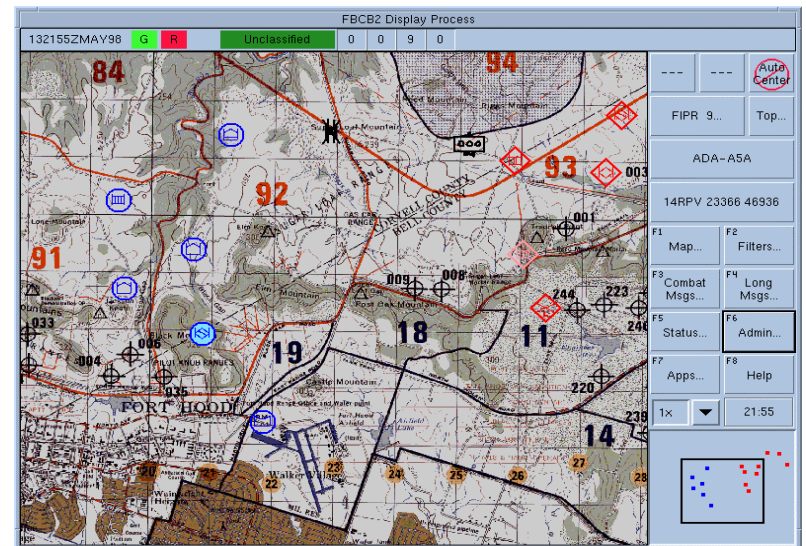

- **System Characteristics**
- **Schedules and Plans**
- **Current Training Tools**
  - **NET Foundation Products**
  - **Embedded Capabilities**
- **Future Training**
- **Summary**

# System Characteristics

## FORCE XXI BATTLE COMMAND BRIGADE AND BELOW (FBCB2)

- Digital Command and Control System for the Army at Brigade and Below
- Consists of Applique hardware and software integrated into the various platforms at Brigade and Below, as well as appropriate Division and Corps slices necessary to support Brigade operations
- Dependent upon a communications infrastructure called the Tactical Internet (TI), made up of existing EPLRS and SINCGARS radios to pass Situational Awareness (SA) data and Command and Control (C2) messages

# FBCB2

## Computer Set, Digital AN/UYK - 128 (V)

Weight: 26.1 lbs

Dimensions: 12.5W X 10.2H X 19.7D

### PROCESSOR UNIT (PU)

Computer, Digital

### DISPLAY UNIT (DU)

Display Unit

10" DISPLAY

used on the AN/UYK-128(V)1

or

12" DISPLAY

used on the AN/UYK-128(V)2

### KEYBOARD UNIT (KU)

Keyboard, Data Entry

### REMOVABLE HARD DISK DRIVE CARTRIDGE (RHDDC)

Disk Drive Unit

### TECHNICAL DOCUMENTATION

TB 11-7010-326-10 (Pocket Guide)  
TM 11-7010-326-10 (User Manual)  
TM 11-7010-326-20&P (Unit)  
TM 11-7010-326-30 (DS)  
TB 11-7010-326-30 (Warranty)

### VARIOUS INSTALLATION KITS

W1 Power

W3P PLGR

W2 Display

W3N INC

W4 Audio

SIAD

TB 11-7010-326-20

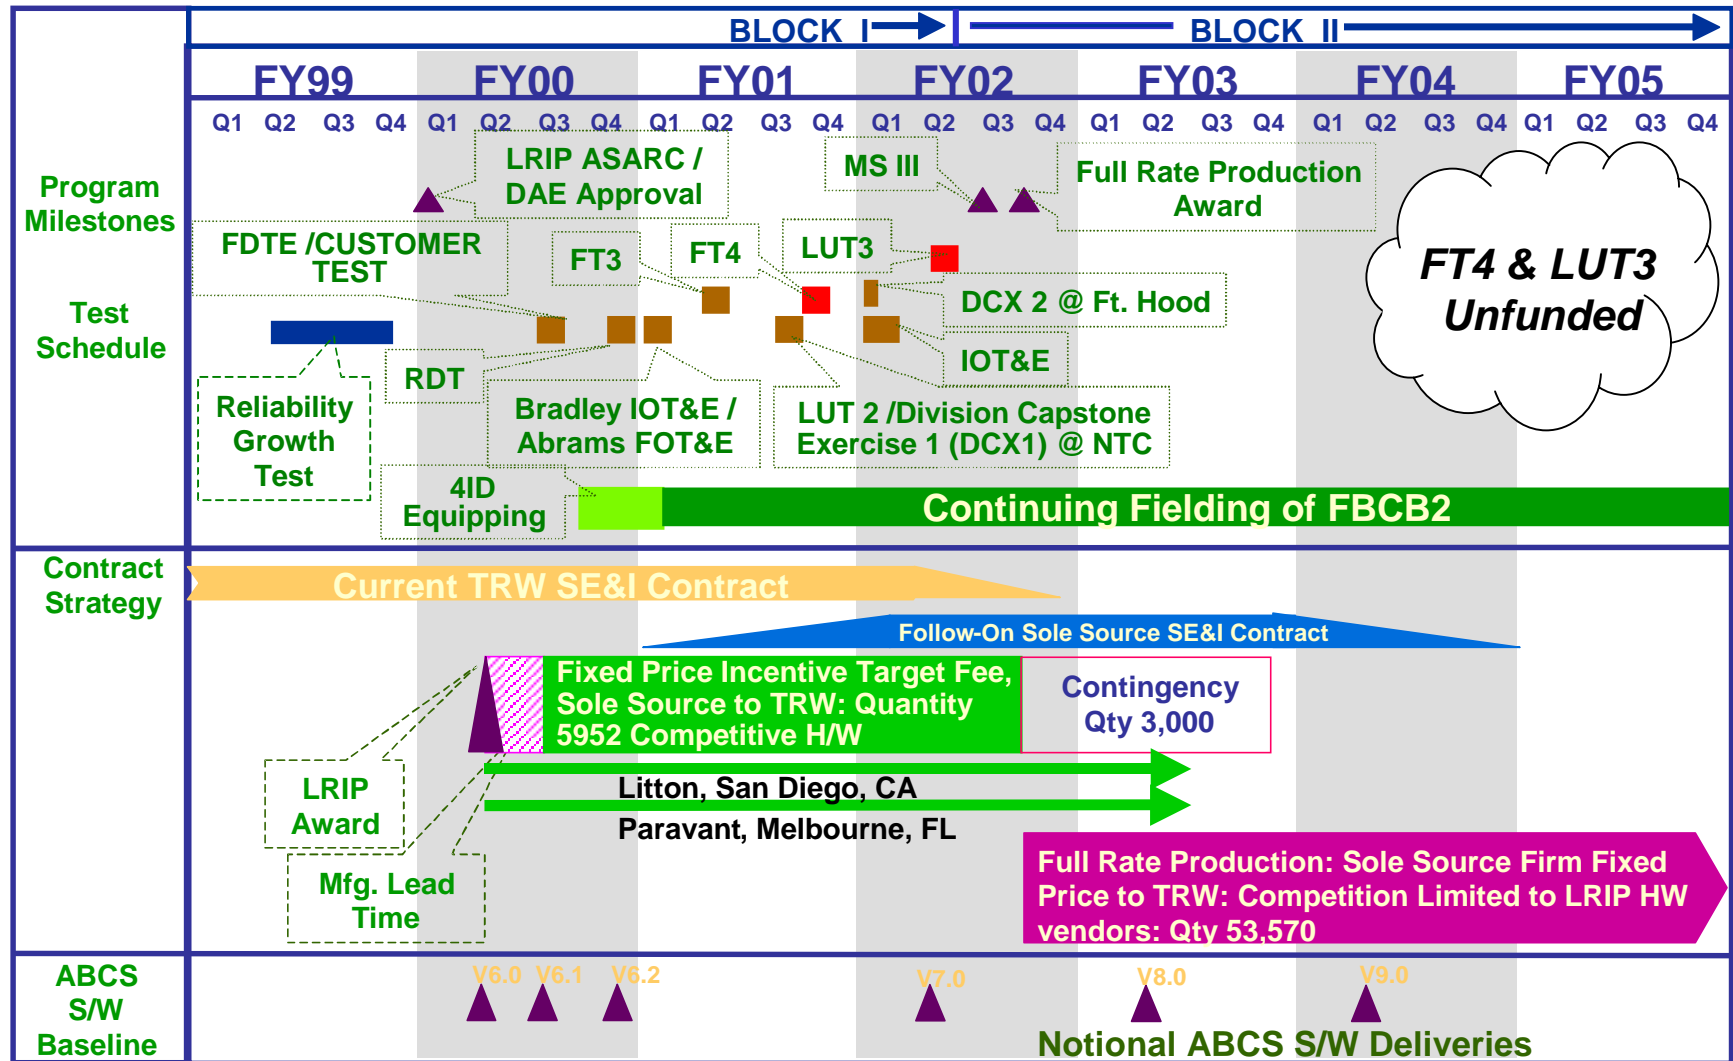

### BATTERY, RECHARGEABLE

BB-388/U

# Program Schedule

**FT4 & LUT3 Unfunded**

# Production & Fielding Plan

# Current Training Tools NET Foundation Products

## General Purpose Users

- Course requires the infrastructure of the CTSF
- 35 hours of instruction time
- Supports combination of “green and white boxes” hands on
- Conducted by select unit Instructors and Key Personnel
- FBCB2 provided Subject Matter Experts to supplement IKP
- Integrated with SINGARS/EPLRS for Systems Approach
- Scenario based roles embedded in Practical Exercises (PE’s)

# Current Training Tools

## NET Foundation Products

*(Continued)*

### Leaders Course

- Course requires the infrastructure of the CTSF
- 24 hours of instruction time
- Focuses FBCB2 operations with emphasis on the role of the lower TI as a force enabler
- Supports combination of “green & white boxes” for hands on
- Conducted by FBCB2 Prime Contractor

Possible Tradoc  
Applications

# Current Training Tools

## NET Foundation Products

*(Continued)*

### Unit Maintainers

- Course requires the infrastructure of the CTSF
- 35 hours of instruction time
- Supported with “green boxes”
- Focuses on a platform environment
- Conducted by FBCB2 Prime Contractor
- FBCB2 provided Subject Matter Experts to supplement IKP
- Integrated with SINCGARS/EPLRS for Systems Approach

# Current Training Tools

## NET Foundation Products

*(Continued)*

### Direct Support Maintainers

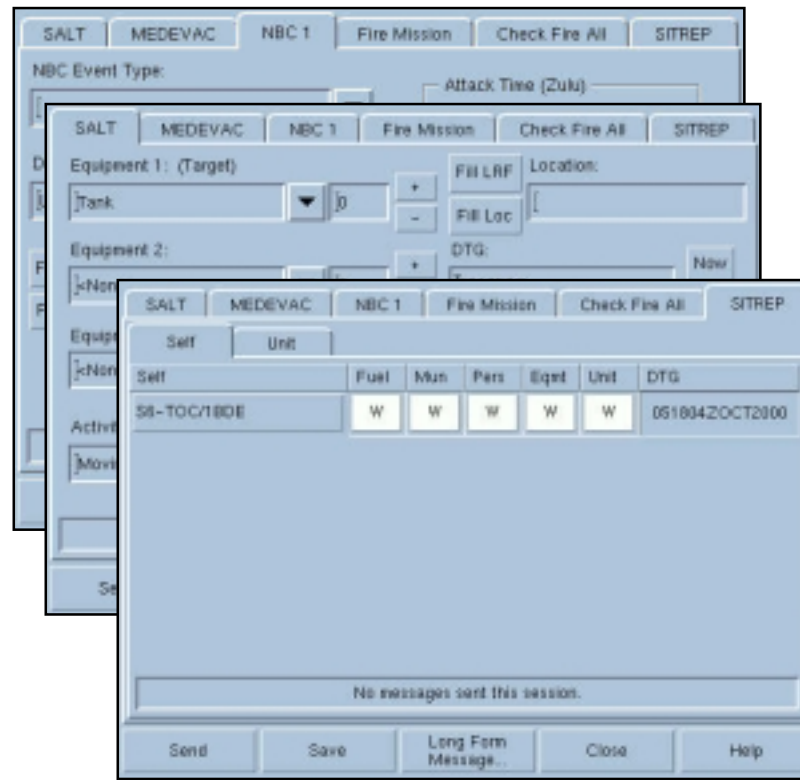

- Trains the limited organic tasks for the DISCOM
  - Duplication of drives
  - Charging of BB-388/U Batteries
- Conducted by FBCB2 Prime Contractor

# Embedded Capabilities

- **Context Sensitive “Help” Menus**
- **Embedded Tutorials**

# Future Training Investment Objectives

- Low overhead - No CTSF or live lower TI
- Simulation/Stimulation with reality
- Modest investment to build
- Low production and refreshment costs
- Incorporated into new Systems Engineering & Integration Contract (new capabilities)

*Can Material Developer objectives and resulting solutions have utility for TRADOC?*

# Potential FBCB2 Training Investments

## **FBCB2 Internet Information Portal**

- Program Description
- Resources
- Training Status
- Downloadable Documentation
- Links to School Houses and Affiliations

## **Sustainment Training for GPU**

- Integration of existing communications CBT(EPLRS) with FBCB2, addressing range of tasks
- High fidelity emulation of H/W and S/W
- Built in scenario generator for PE's
- Linkage to ETM
- Web-based, CD-ROM
- ADL compliant for delivery over DD2-N Training Sub-system Architecture.

## **Web-Based Delta Training**

- Cost-effective alternative to scheduling classrooms and soldiers
- Screen captures and Screen CAMS
- Use of simulation to train more complex skills
- ADL compliant for delivery over the Army's DD2-N Training Sub-system Architecture

## **Scenario Generator**

- Scenario driven missions based upon proponent driven scenarios
- Role oriented, for specialization across proponents
- Feedback and on-line AAR driven
- ADL compliant over DD2-N architecture

# Institutional FBCB2 Training

- **Force sustainment training starting in FY02**
- **Training Base Infrastructure required (Surrogate Equipped Classrooms at Schools and Centers)**
- **FBCB2 Equipped platforms for Leader tactical training at Schools and Center**
- **Familiarization Operator Training**
- **Leader Development Training BNCOC, ANCOC, Basic Course**
- **CPTS Course teach Battle Staff FBCB2 and ABCS Leaders skills**

Schools and Centers  
will Require Equipped  
Classrooms and Platforms
